

## Support the Penobscot River Restoration Project

*Balancing the environment, economy and quality of life in Maine's largest watershed.*

**Please add your business or organization to the growing list of supporters for the innovative Penobscot River Restoration Project. By removing dams, improving fish passage, and maintaining hydro-power production this project holds great hope for a balanced Penobscot River. This project will restore native fish, renew cultural and recreational traditions, bolster economic opportunities for tourism, business and communities, and revive the health of the river for other wildlife. Show your support for the collective efforts of corporate interests, state and federal agencies, the Penobscot Indian Nation, and conservation groups, working in conjunction with communities.**

**There is much work to be done to make this project a reality, so please take a moment to show your support by filling out this form and returning to the fax number, email, or address below.**

**Our organization/business would like a project presentation.**
